1918 Nursery Inspection CERTIFICATE NO. 12 1919
Expires, Sept. 1 1919

This is to Certify, That in accordance with the provisions of the Ark. Plant Act of 1877 the nursery and premises thereof belonging to The Pines Plantation of Hatfield Ark, have been inspected by a duly authorized inspector and found to be substantially free from dangerous insect pests and disease and that the owner or operator of such nursery has agreed to comply with requirements as the Chief Inspector has prescribed for the elimination of infested trees or plants as a condition of the issuance of this certificate, and that nursery stock may be sold and shipped from said nursery under this certificate or a copy thereof until this certificate shall have expired or been revoked for cause. Not Transferable. J. Lee, Jr. Mitt.

INFORMATION

SHIPPING The special low rate makes it as a rule, cheaper and at this time, perhaps better to ship nursery stock by express. When no instructions are given we will use our best judgment in forwarding. we deliver trees in good condition to the transportation Co's. where our liability ceases.

WRITE Your name postoffice, freight station, and express office. very plain.

WE GUARENTEE vitality, variety, etc, to its purchase price only beyond that amount we will at no time or for any cause be responsible. But we exercise every care and have yet to hear the first complaint.

CLAIMS Make claims for loss. shortage etc. at once please, so much easier to trace.

BUY THRIFT STAMPS, with your money if you think your fruit trees can care for themselves, an uncared for planting of young trees is a reproach to you, to your nurseryman, to our tree inspectors, to your locality, and it injures the states fruit prospects. Culivate.

REMIT Any way way most convenient Draft, Check, or M. O. For a small deposit we will at once set aside your order and ship when you are ready. **ORDER EARLY.**

THE PINES PLANTATION

JAMES A. SLOTE, PROP.

MATFIELD, ARKANSAS.

STRAWBERRIES

OUR BEST Early, Midseason, and Late also our splendid early large, mellow berry 25c. 100 We have a long season assortment of the best, 400 for 1.00 Our berries have never failed. We have Excelsior, Klondike, Aroma, and St. Louis. We want you to ask questions.

PEAR

All pears seem adapted to our soil and climate, blight is the pears worst enemy, we plant only the most resistant varieties.

KEIFFER, - Tree a strong grower bears young, pick about two weeks before eating.

SECKLE, - Finest flavored known, hardy, healthy, but slow growing tree.

SUGAR, - Or Sand pear a semi wild sort on its own root stands neglect, more blight resistant than even seckle or keiffer.

EARLY HARVEST, - Golden yellow good for kitchen or market. Our pear trees are 3 to 4 feet straight or branched fine trees.

CHERRIES

EARLY RICHMOND, - Red, juicy, does well ripens here in May. a money maker.

MONTMORENCI, - Very large red middle to last of May. we have 500 bearing of the above sorts and they are early money makers.

ROCKY MNT. - or Sand cherry bush form bears first or second year. fruit large dark somewhat puckery fine for cooking jams etc, We also have E. Morello, Tartarian Wood etc.

PLUMS

SHROP. DAMSON, - Large blue plum

JAPANESE, - **ABUNDANCE-WICKSON**, **BURBANK** and **RED JUNE**.

EARLY JUNE, - Large red juicy our best and surest money getter does best on own roots which bother some about sprouting when plow cuts the roots, sprouts come true.

GRAPES

CONCORD - The old favorite large black.

NIAGARA - The white concord large white.

DIAMOND - Fine, large, greenish white.

AGAWAM - Large red. high flavor, fox y.

ELVIRA - bunch compact yellowish sweet.

ALL GRAPES FIVE CENTS EACH.

APPLE

Listed about as they ripen —
RED JUNE - A heavy annual cropper for
 use and first early money. Our cuttings
 buds are from the best tree in Polk Co.
YELLOW HARVEST — Early sweet very
 low easily bruised ship somewhat green
RED ASTRACHAN — Large juicy cook
 for market Tree strong grower large leaf
YELLOW TRANSPARENT — Subacid a
 y maker very early plant some.
HORSE — A great southern apple sure.
WOLF RIVER — The largest apple,
GANO — A large dark red apple regular
 baby trees are from the best of their kind.
DELICIOUS — Hardy, bears young finest.
ROME BEAUTY — Large striped strong
 er if frozen will bloom again good keeper.
ARK. Black — Firm juicy long keeper.
Wine SAP, Staymens Improved Larger a.
 long keeper getting best about christmas

We have also a few of the following old
 favorites, — Ben Davis, Yates, Sweet June
 and Shockley, York, Grimes Golden etc.

Plant most apple trees 30 ft. apart, dig the
 wide and deep, fill in with top soil do not
 and up, keep the soil loose, A fork full of
 ore to a tree each year will feed them nicely
 care of your trees while they are young
 they will care for you when you are old.

We are growers, shippers, and canners of
 , we have tried out many sorts some pro-
 nprofitable, if in doubt about what sorts
 nt for home or market, ask us or some
 y grower or, better still, write to the
 lent of the State Plant Board Little, Rock
J. LEE HEWITT who will without char-
 e the states best information on any of
 fruit problems.
